Guidance Training Consultation

Tervaväylä school Learning and Consulting centre

Tervaväylä is a state-funded special school and centre for development in special needs education. The school has an over a 100-year history in the education, treatment and rehabilitation of children and youth in need of special support. Tervaväylä is located in Oulu, Finland, and it consists of two units: Lohipato and Merikartano Units.

Objects and Activities

Tervaväylä school - Learning and Consulting centre offers services at the national level, although most pupils and clients are from Northern Finland.

We serve children with:

- specific language impairment (SLI)
- deafness or hearing loss
- physical disability with comorbidities
- neurological disorders
- autism spectrum disorders (ASD)

The operations of our school are divided into three main areas:

1. The objective of our services is to support the learning of pupils from Northern Finland and their everyday life in their own schools and homes. The services of Tervaväylä school - Learning and Consulting centre include:
 - courses and seminars
 - consultation visits
 - theme days
 - special support programmes
 - creation of learning material
 - workplace counselling

2. We always aim to examine and develop work in order to create methods of teaching, rehabilitation and care as well as curriculum and rehabilitation plans. This also allows the practical testing of theoretical research data. Our expertise culminates in new learning materials and literature.

3. Tervaväylä School focuses on special education and the supportive rehabilitation, care and support services. Our special support programmes enhance the opportunities of children with special needs to study in their own local schools.

All operations of Tervaväylä School are guided by the development and maintenance of regional equality.
