# Consultation center for coaching and support

- We offer support to other schools or school communities throughout our expertise regarding conduct and emotional problems, ASD and class-management
- The purpose is prevention and enhancing the competences of a school team in order to maximize the chances for children with special needs in a regular school.
- We support a region that consists of 40.000 students. (kindergarten, primary en secondary schools)
- +/- 20 cases a year

# The start

- 1996-1977 Research at the university of Leuven

“How can the didactic and pedagogic principles and methods of the SEN-schools help the regular schools?”

- Questions for help from regular schools
- 4 Learning groups (type 1-3-8 & regular)
- 5 contact moments
- Method: intercollegial consultation : exchange of know-how

# Results of the research

- 80% of the requests for help were about socio-emotional and behaviour problems
- Most questions asked by primary schools
- There was a great learning effect for the teachers from the regular schools **and** SEN-schools

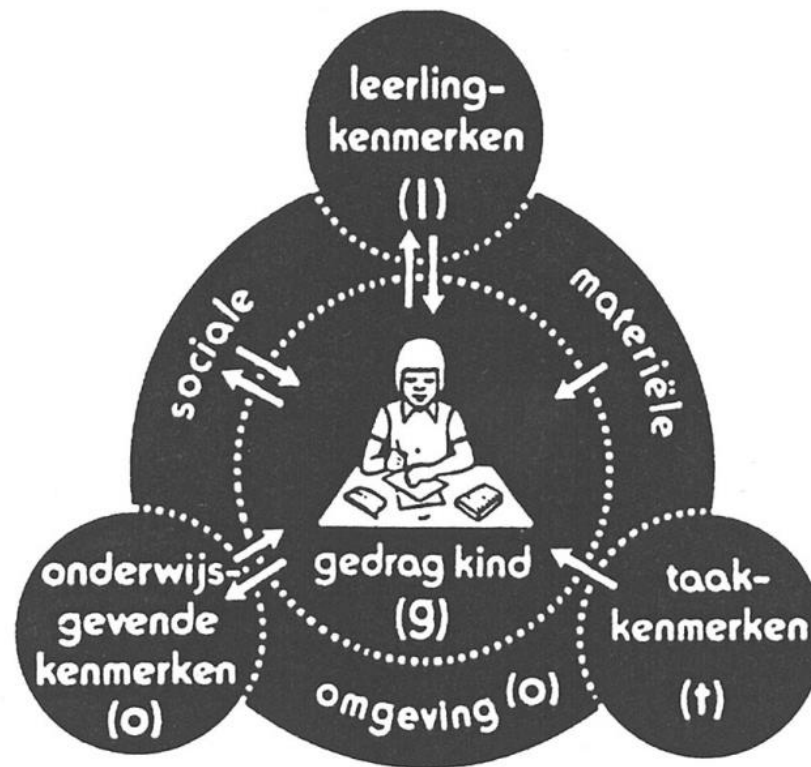

# Until now

- 1998-2000  
First 2 years ½ fulltime from the VSKO
- 2000-2005 Two regular primary schools gave 2 hours each
- 2005 until now.
